Controlling Workplace Injuries

Loss control is all about making your workplace safer. And when your workplace is safer, your employees are more productive. Our Loss Control Department offers a number of resources to help you improve on-the-job safety. We can help you evaluate your safety and health programs, assist you in identifying cost-effective safety controls, and provide staff training.

Loss Control Services

EMPLOYERS® offers policyholders the full spectrum of loss control services. These services are available to policyholders at no additional cost and can include:

- **Risk Evaluation**: Our Loss Control Consultants can help our policyholders evaluate the effectiveness of their health and safety programs. They can also help train staff to recognize and eliminate worksite hazards.

- **Comprehensive Loss/Cause Analysis**: Using a data-driven analytical process to identify loss patterns and trends, our Loss Control Consultants can help our policyholders focus on the root causes of accidents and injuries.

- **Educational Resources**: EMPLOYERS maintains an extensive resource library that can help our policyholders meet their safety program needs.

- **Industrial Hygiene**: Our Loss Control Consultants can assist you in recognizing, evaluating and controlling risk factors that may lead to injuries caused by harmful chemical substances, hazardous physical agents and biological contaminants.

- **Ergonomic Services**: The Loss Control Consultants at EMPLOYERS can help identify risk factors associated with musculoskeletal disorders (MSDs) in the workplace and how to control them.

*A consultation with a Loss Control Consultant is required before the services listed above are provided.*
**Loss Control Training**

Our qualified safety trainers are available to educate policyholders, industry groups and agents on the importance of safety in the workplace. Custom programs can be developed to address the specific health and safety issues faced by our policyholders. Our extensive library of safety and health resources is available to assist with our policyholders’ and agents’ in-house training efforts. Many programs are available in both English and Spanish.

Some of the safety and health training topics include:

- Injury and Illness Prevention Program
- Accident Investigations
- Personal Protective Equipment
- Fleet/Vehicle Safety
- Drug-Free Workplace
- Lockout/Tag-out
- Blood-borne Pathogens
- Hazard Communication

**Loss Control ConnectionSM**

EMPLOYERS® Loss Control ConnectionSM is a comprehensive risk management and human resource web center that allows you to build a risk management program that is focused on loss prevention in the workplace. There are also easy-to-use software applications that may help reduce losses, track training and perform many other required or mandatory safety, risk management and human resources tasks.

The following resources are available through Loss Control Connection:

- Safety and health policies and procedures
- Training materials and quizzes
- Newsletters and brochures
- Safety and health posters
- Certificate of Insurance tracking
- Incident Track – OSHA log software
- Job hazard analysis developer
- Safety data sheet management
